A. Every owner, tenant, lessee or occupant of any premises where solid waste is generated shall provide upon the premises sufficient standard containers for receiving and holding all solid waste generated between the times of removal. All solid waste on the premises shall be kept in said standard containers.

B. Every owner, operator, manager or person in charge of any hotel, restaurant, cafe, cafeteria, hospital, public dining room or other place where food is prepared for sale, sold or offered for sale for human consumption and every owner, operator, manager or person in charge of any store, market or other place where meat, fish, fowl, vegetables, fruit or any food is sold or offered for human consumption shall provide a separate standard container for receiving and holding all garbage created upon the premises between the times of collection; provided, however, the garbage may be placed in the same receptacles as rubbish if the garbage is drained and securely wrapped or sealed in plastic bags prior to placement in the container or bin.

C. Solid waste containers shall be maintained in a clean and sanitary condition. It is unlawful for any person, firm or corporation to use solid waste containers that do not conform to the provisions of this chapter or that may have ragged or sharp edges or any other defect liable to hamper or injure the person collecting the contents thereof. If, within five days after written notice of a violation of this section from the Public Works Director, such container is not repaired

(Ord. 6237 § 1, 1995: Ord. 6071 § 1, 1993; Ord. 5999 § 1, 1992; Ord. 5954 § 4, 1991; Ord. 5928 § 1, 1991; Ord. 4599 § 1, 1978; Ord. 4551 § 1, 1978; Ord. 4502 § 1, 1978; Ord. 4406 § 1, 1977; Ord. 4189 § 1 (part), 1975)

H. All solid waste removal pursuant to a valid self-hauler's permit shall be accomplished by the permit holder or the holder's own employees using the permittee's own equipment.

I. All solid waste removed pursuant to a self-hauler permit shall be deposited only at authorized and licensed solid waste disposal sites.

J. All equipment used by a self-hauler's permittee to remove solid waste shall comply with the requirements of Section 6.04.060.

K. Every holder of a self-hauler permit shall submit legible copies of landfill receipts to the Public Works Director on or before the tenth of each month for solid waste deposits made during the previous month at authorized and licensed solid waste disposal sites. Section 6.04.060 Vehicle requirements for conveyance of solid waste.

A. Passenger motor vehicles shall not be used in the transportation of solid waste upon or along any public street or highway of the City; provided, however, residential self-haulers as provided in Section 6.04.055 may utilize such vehicles upon the condition that the solid waste is so contained as to prevent it from leaking, dripping, falling, blowing or scattering from the vehicle in which it is being conveyed or transported.

B. Trucks used in the collection and transportation of solid waste shall have bodies of watertight metal construction which shall be leakproof and shall be equipped with a close-fitting cover, which shall be affixed in a manner that will prevent dropping, spilling or other loss of solid waste upon the highway during collection and transportation. In lieu of such watertight bodies and covers, separate metal containers with tight-fitting, clamp-on lids may be used.

C. Trucks used in the collection of rubbish shall have solid construction of the floor and body and shall be equipped with a close-fitting covering which shall be affixed in a manner that will prevent the dropping or blowing of any rubbish upon the highway during collection and transportation.

D. All trucks used in the collection and transportation of solid waste and rubbish shall be maintained in a clean, sanitary and neatly painted condition, and shall carry a shovel, broom, first-aid kit and fire extinguisher.

E. Every contractor authorized by the City Council to collect solid waste shall paint his firm name and telephone number in legible letters not less than three inches in height on both sides of all trucks used to collect and transport refuse. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

C. Solid waste will not be collected on Sundays except in emergencies and as approved by the Public Works Director.

D. Solid waste collection within or in close proximity to residential areas shall not
commence prior to five-thirty a.m. on any day. (Ord. 5954 § 6, 1991; Ord. 5928 § 1, 1991; Ord.

It shall be unlawful for any person other than the owner or agent or employee of the
owner of a solid waste or recyclable material receptacle, a solid waste hauler or the person or
agent or employee of the person for whom a solid waste or recyclable material receptacle is
contracted or placed to collect refuse or recyclable material to rummage in, disturb, interfere,
scapenge, or remove refuse or recyclable material from officially designated refuse and
recyclable containers. (Ord. 6755 § 1, 2004; Ord. 6424 § 3, 1998; Ord. 5928 § 1, 1991; Ord.
5855 § 1, 1990; Ord. 5326 § 1, 1985; Ord. 4189 § 1 (part), 1975)

Section 6.04.080 Dumping, placing, burning and burial restrictions.

otherwise dispose of any waste matter, including but not limited to garbage, hazardous waste,
refuse, recyclable materials, rubbish, or solid waste as defined in Section 6.04.010 upon any lot,
land, street, alley, water or waterway, either with or without intent to later remove same.
B. Solid waste may not be buried on any lot in the City. This Section shall not be
interpreted to prohibit composting of yard waste. (Ord. 6875 § 2, 2006; Ord. 5928 § 1, 1991;
Ord. 4599 § 2, 1978; Ord. 4189 § 1 (part), 1975)

Section 6.04.090 Unsightly solid waste deemed nuisance.
Solid waste, which by reason of its location and character is unsightly and interferes with
the reasonable enjoyment of property by neighbors, is a public nuisance within the meaning and
subject to the provisions of this Code. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.100 Property owner alley clearance duties.
No person owning, leasing or occupying property adjoining any public alley in the City
shall fail, refuse or neglect to keep that portion of such alley between the centerline thereof and
the property line of such property free from solid waste. (Ord. 5928 § 1, 1991; Ord. 4189 § 1
(part), 1975)

Section 6.04.110 Care of animal habitation.
Every owner, lessee, tenant or occupant of any lot, place or premises within the City on
which any horse, cow, barnyard fowl or other animals are kept, or of any place where manure or
urine from such animals accumulates, shall at all times keep or cause to be kept the lot,
premises or place, and the appurtenances thereof, in a clean and wholesome condition. (Ord.
5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.120 Manure removal from premises.
Unless all manure accumulating on any premises is removed daily, boxes or receptacles
of a design and construction acceptable to the Riverside County Health Officer shall be provided
by each owner, lessee, tenant or occupant of such places, and the boxes or receptacles shall
be used only for the purpose of containing the accumulation of manure and shall be kept tightly
closed at all times except when manure is being placed therein or removed therefrom, and in no
instance shall manure be so placed in such boxes or receptacles in such a manner as to
prevent the tight closing of the lid. The boxes or receptacles shall be maintained to prevent
access to the contents thereof by flies. The contents of the boxes or receptacles shall be
removed as often as filled, or more often if so required by the Health Officer or his authorized
representatives, except that the provisions of this section shall not apply to premises located in
the RA Zone as now bounded and defined or may be hereafter bounded and defined by the
Zoning Ordinance and other ordinances of the City and amendments thereto. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.130 Accumulation of waste matter restricted.
No person owning or occupying any building, lot or premises in the City shall suffer, allow or permit to collect and remain upon such lot or premises any solid waste; provided, however, that this provision shall not be construed as interfering with building under a building permit, or wood neatly piled for kitchen or household use. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.140 Restraint of animals to protect collectors.
Any occupant owning or possessing an animal on the premises which may bite or attempt to bite a solid waste hauler while engaged in collecting refuse shall be required to secure the animal(s) or place the receptacles in such manner that such animal shall not constitute a hazard or to endanger a solid waste hauler. In addition to any criminal penalties specified in this code, failure to adhere to the requirements of this section shall be cause for suspension of collection service during such time as there exists any such danger or hazard. Suspension of service pursuant to this section shall not relieve any person or firm of the duty to pay solid waste collection charges during such period of suspension. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.150 Regulation-making powers.
The Public Works Director is authorized to make such rules and regulations not inconsistent with the provisions of this chapter so as to effect efficient collection and removal of waste material by the City or its duly authorized contractors. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.160 Collection areas.
For purposes of defining the areas of the City in which the City's contractors will operate and in which areas City personnel will collect residential solid waste, a map of the City is on file in the office of the City Clerk. Five areas are identified thereon. The type of service: residential or commercial; exclusive or non-exclusive; City personnel or contractor; are identified in the contracts with City's contract solid waste collectors. Upon a determination by the Public Works Department and at the direction of the Public Works Director that good cause exists or that an annexation has been completed, that map may be modified. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.170 Collection charges.
The City Council shall by resolution fix and from time to time amend the various charges to be made and paid for solid waste collection. (Ord. 5954 § 7, 1991; Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.180 Inspection of premises--chapter enforcement.
The duly authorized representative of the Health Officer or Public Works Director shall visit all premises within the City from time to time to examine the sanitary conditions of the premises to determine whether the provisions of this chapter and state laws are being complied with. The Public Works Director shall enforce the provisions of this chapter and properly notify any owner or occupant of any violations of this chapter. Such notice whenever possible shall be affixed to a receptacle or delivered in person. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)
Section 6.04.190 Alternate enforcement.
Notwithstanding the provisions of this chapter prescribing specified action in the event of a violation, any other appropriate criminal or civil action may be maintained against the violation and against any person maintaining or permitting the violation. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)

Section 6.04.200 Severability.
If any section, subsection, sentence, clause or phrase of this chapter is for any reason held to be invalid or unconstitutional by decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this chapter. The City Council declares that it would have passed this chapter and each section, subsection, clause or phrase hereof irrespective of the fact that any one or more other sections, subsections, clauses or phrases may be declared invalid or unconstitutional. (Ord. 5928 § 1, 1991; Ord. 4189 § 1 (part), 1975)
Chapter 6.05

DEVELOPMENT PROJECT AREAS FOR COLLECTION AND LOADING OF RECYCLABLE MATERIALS

6.05.030 General requirements.
6.05.040 Guidelines for all development projects.
6.05.050 Additional guidelines for single-tenant development projects.

Section 6.05.010 Findings.
The City Council of the City of Riverside finds and declares that:
A. Cities and counties must divert fifty percent of all solid waste by January 1, 2000, through source reduction, recycling, and composting activities.
B. Diverting fifty percent of all solid waste requires the participation of the residential, commercial, industrial, and public sectors.
C. The lack of adequate areas for collecting and loading recyclable materials that are compatible with surrounding land uses can be an impediment to diverting solid waste depending on the City's plan to comply with State waste diversion goals.
D. On July 26, 1994, the City Council conceptually approved a cooperative project between the City and Riverside County Waste Management District to construct a transfer station, designed in such a manner that a mixed waste materials recovery facility (MRF) could be added at a later date if needed to meet state waste diversion goals. Since the MRF is to be designed to process mixed waste, it is not necessary to require separate areas for collecting and loading recyclable materials. Therefore, it is the intention of the ordinance codified in this chapter to declare areas normally required to handle the waste generation needs of a project as adequate for collecting and loading recyclable materials as required under the California Solid Waste and Recycling Access Act of 1991, as long as the MRF facility is planned to handle the City's waste diversion needs. (Ord. 6164 § 1 (part), 1994)

Section 6.05.020 Definitions.
The following definitions shall apply to the language contained in this ordinance:
"Development projects" means any of the following:
1. A project for which a building permit is required for a commercial, industrial or institutional building, marina, or residential building having five or more living units, where solid waste is collected and loaded and any residential project where solid waste is collected and loaded in a location serving five or more living units.
2. Any new public facility where solid waste is collected and loaded and any improvements for areas of a public facility used for collecting and loading solid waste.
3. The definition of development project only includes subdivisions or tracts of single-family detached homes if, within such subdivisions or tracts there is an area where solid waste is collected and loaded in a location which serves five or more living units. In such instances, recycling areas as specified in this chapter are only required to serve the needs of the living units which utilize the solid waste collection and loading area.
   Improvement. An improvement adds to the value of a facility, prolongs its useful life, or
adapts it to new uses. Improvements should be distinguished from repairs. Repairs keep facilities in good operating condition, do not materially add to the value of the facility, and do not substantially extend the life of the facility.

Public Facility. The definition of public facility includes, but is not limited to, buildings, structures, marinas, and outdoor recreation areas owned by a local agency.

Recycling Area (Areas for Recycling). Space allocated for collecting and loading of recyclable materials, which space will not necessarily be separate from or in addition to the space required for solid waste collection. Such areas shall have the ability to accommodate receptacles for recyclable materials. Recycling areas shall be accessible and convenient for those who deposit as well as those who collect and load any recyclable materials placed therein. (Ord. 6164 § 1 (part), 1995)

Section 6.05.030 General requirements.

A. Any new development project for which an application for a building permit is submitted on or after September 1, 1994, shall include adequate, accessible and convenient areas for collecting and loading recyclable materials.

B. Any improvements for areas of a public facility used for collecting and loading solid waste shall include adequate, accessible and convenient areas for collecting and loading recyclable materials.

C. Any existing development project for which an application for a building permit is submitted on or after September 1, 1994 for a single alteration which is subsequently performed that adds thirty percent or more to the existing floor area of the development project shall provide adequate, accessible and convenient areas for collecting and loading recyclable materials.

D. Any existing development project for which an application for a building permit is submitted on or after September 1, 1994 for multiple alterations which are conducted within a twelve-month period which collectively add thirty percent or more to the existing floor area of the development project shall provide adequate, accessible and convenient areas for collecting and loading recyclable materials.

E. Any existing development project for which multiple applications for building permits are submitted within a twelve-month period beginning on or after September 1, 1994 for multiple alterations which are subsequently performed that collectively add thirty percent or more to the existing floor area of the development project shall provide adequate, accessible and convenient areas for collecting and loading recyclable materials.

F. Any existing development project occupied by multiple tenants, one of which submits on or after September 1, 1994 an application for a building permit for multiple alterations which are conducted within a twelve-month period which collectively add thirty percent or more to the existing floor area of that portion of the development project which said tenant leases shall provide adequate, accessible and convenient areas for collecting and loading recyclable materials. Such recycling areas shall, at a minimum, be sufficient in capacity, number and distribution to serve that portion of the development project which said tenant leases.

G. The assessment shall continue until it is paid, together with interest at the legal maximum rate computed from the date of confirmation of the statement until payment. The assessment may be collected at the same time and in the same manner as ordinary municipal taxes are collected and shall be subject to the same penalties and the same procedure and sale in case of delinquency as provided for ordinary municipal taxes.

The notice shall be given at the time of imposing the assessment and shall specify that the property may be sold after three years by the Tax Collector for unpaid delinquent assessments. The Tax Collector's power of sale shall not be affected by the failure of the property owner to receive notice.

C. The County Auditor shall enter each assessment on the County tax roll upon the parcel of land. The assessment shall be collected at the same time and in the same manner as ordinary municipal taxes are collected, and shall be subject to the same penalties and procedure and sale in case of delinquency as is provided for ordinary municipal taxes. All laws applicable to the levy, collection and enforcement of municipal taxes shall be applicable to the special assessment. However, if any real property to which the cost of abatement relates has been transferred or conveyed to a bona fide purchaser for value, or if a lien of a bona fide encumbrancer for value has been created and attaches thereon, prior to the date on which the first installment of the taxes would become delinquent, then the cost of abatement shall not result in a lien against the real property but instead shall be transferred to the unsecured roll for collection. The tax collector's power of sale shall not be affected by the failure of the property owner to receive notice. (Ord. 6724 § 11, 2004; Ord. 6515 § 6, 2000; Ord. 5910 § 1, 1991)

An ownership interest shall be deemed to exist when a Person has a ten percent (10%) or greater interest in the stock, assets, or income of a business other than the sole interest of security for debt. A managerial interest shall be deemed to exist when a Person can or does have or share ultimate control over the day-to-day operations of a business.

F. “Retail Tobacco Store” means a retail store utilized primarily for the sale of tobacco products and accessories, and in which at least 80 percent (80%) of the square footage of the available retail floor and shelf space is devoted to the sale of tobacco-related products and accessories.
G. “Self-Service Display” means an open display of Tobacco Products or Tobacco Paraphernalia in a manner that is accessible to the general public without the assistance of the retailer or employee of the retailer. A Vending Machine is a form of Self-Service Display.

H. “Smoking” means possessing a lighted Tobacco Product, lighted Tobacco Paraphernalia, or any other weed or plant (including a lighted pipe, cigar, hookah pipe, or cigarette of any kind), or the lighting of a Tobacco Product, Tobacco Paraphernalia, or any other weed or plant (including a pipe, cigar, hookah pipe, or cigarette of any kind).

I. “Tobacco Paraphernalia” means cigarette papers or wrappers, pipes, holders of smoking materials of all types, cigarette rolling machines, and any other item designed for the smoking, preparation, storing, or consumption of Tobacco Products.

J. “Tobacco Product” means:
1. Any substance containing tobacco leaf, including but not limited to cigarettes, cigars, pipe tobacco, hookah tobacco, snuff, chewing tobacco, dipping tobacco, bidis, or any other preparation of tobacco; and
2. Any product or formulation of matter containing biologically active amounts of nicotine that is manufactured, sold, offered for sale, or otherwise distributed with the expectation that the product or matter will be introduced into the human body but does not include any product specifically approved by the United States Food and Drug Administration for use in treating nicotine or tobacco dependence.

K. “Tobacco Retailer” means any Person who sells, offers for sale, or does or offers to exchange for any form of consideration, tobacco, Tobacco Products, or Tobacco Paraphernalia, or who distributes free or low-cost samples of Tobacco Products or Tobacco Paraphernalia. “Tobacco Retailing” shall mean the doing of any of these things. This definition is without regard to the quantity of tobacco, Tobacco Products, or Tobacco Paraphernalia sold, offered for sale, exchanged, or offered for exchange.

L. “Vendor-Assisted” means that only a store or Tobacco Retailer has access to the Tobacco Product or Tobacco Paraphernalia and assists the customer by supplying the Tobacco Product or Tobacco Paraphernalia. The customer does not take legal possession of the Tobacco Product or Tobacco Paraphernalia until it is purchased.

M. “Vending Machine” means a machine, appliance, or other mechanical device operated by currency, token, debit card, credit card, or any other form of payment that is designated or used for vending purposes including, but not limited to, machines or devices that use remote control locking mechanisms. (Ord. 6878 § 1, 2006)

Section 6.24.030 Sale and Distribution of Tobacco Products; Tobacco Retailer License Required.

A. It shall be unlawful for any person, business, or tobacco retailer, except for a Retail Tobacco Store, to sell, permit to be sold, offer for sale, or display for sale any Tobacco Product or Tobacco Paraphernalia by any means other than Vendor-Assisted Sales. A Vending Machine, as defined in Section 6.24.020(M) above, is not a Vendor-Assisted Sale.

B. It shall be unlawful for any Person, Business, or Tobacco Retailer to engage in the sale of Tobacco Products or Tobacco Paraphernalia without first posting a plainly visible sign at the point of purchase of Tobacco Products or Tobacco Paraphernalia which states: “THE SALE OF TOBACCO PRODUCTS OR TOBACCO PARAPHERNALIA TO PERSONS UNDER EIGHTEEN (18) YEARS OF AGE IS PROHIBITED BY LAW AND SUBJECT TO PENALTIES. PHOTO IDENTIFICATION IS REQUIRED.” The letters of the sign shall be at least one-quarter inch (1/4”) high.

C. It shall be unlawful for any person, business, or tobacco retailer to sell any Tobacco Product or Tobacco Paraphernalia to any individual who appears younger than eighteen (18) years old, without first verifying, by means of photographic identification containing the bearer’s date of birth, that the purchaser is at least eighteen (18) years old, unless the Person,
Business, or Tobacco Retailer has some other reliable basis for determining the purchaser’s age.

D. It shall be unlawful for any Person to act as a Tobacco Retailer without first obtaining and maintaining a valid Tobacco Retailer’s license pursuant to this Chapter for each location at which that activity is to occur. Tobacco Retailing without a valid Tobacco Retailer’s License is a public nuisance.

E. A Tobacco Retailer or Proprietor without a valid Tobacco Retailer license, including, for example, a revoked license:
   1. Shall keep all Tobacco Products and Tobacco Paraphernalia from public view. The public display of Tobacco Products or Tobacco Paraphernalia in violation of this provision shall constitute an “offer for sale” for the purposes of Section 6.24.120 of this Chapter.
   2. Shall not display any advertisement relating to Tobacco Products or Tobacco Paraphernalia that promotes the sale or distribution of such products from the Tobacco Retailer’s location or that could lead a reasonable consumer to believe that such products can be obtained at that location.

F. Nothing in this Chapter shall be construed to grant any Person obtaining and maintaining a Tobacco Retailer’s license any status or right other than the right to act as a Tobacco Retailer at the location in the City identified on the face of the permit. For example, nothing in this Chapter shall be construed to render inapplicable, supercede, or apply in lieu of, any other provision of applicable law including, but not limited to, any provision of this Code, or any condition or limitation on smoking in an enclosed place of employment pursuant to California Labor Code Section 6404.5. For example, obtaining a Tobacco Retailer license does not make the retailer a “retail or wholesale tobacco shop” for the purposes of California Labor Code Section 6404.5

G. In the event of any conflict with any other provision of the Riverside Municipal Code relating to tobacco, this Chapter shall control subject to its enforcement by the County Counsel and the District Attorney for the purposes for which this Chapter is enacted. (Ord. 6878 § 1, 2006)

A. Application for a Tobacco Retailer’s license shall be submitted in the name of each Proprietor proposing to conduct retail tobacco sales and shall be signed by each Proprietor or an authorized agent thereof. It is the responsibility of each Proprietor to be informed regarding all laws applicable to Tobacco Retailing, including those laws affecting the issuance of a Tobacco Retailer’s License.

B. No proprietor may rely on the issuance of a license as a determination by the City that the Proprietor has complied with all laws applicable to Tobacco Retailing. A license issued contrary to this chapter, contrary to any other law, or on the basis of false or misleading information supplied by a Proprietor shall be revoked pursuant to section 6.24.100 of this chapter. Nothing in this chapter shall be construed to vest in any Person obtaining and maintaining a Tobacco Retailer’s license any status or right to act as a Tobacco Retailer in contravention of any provision of law.

C. All applications shall be submitted on a form supplied by the Department and shall contain the following information:
   1. The name, address, and telephone number of each Proprietor of the business that is seeking a license;
   2. The business name, address, and telephone number of the single fixed location for which a Tobacco Retailer’s license is sought;
   3. The name and mailing address authorized by each Proprietor to receive all license-related communications and notices (the “Authorized Address”). If an Authorized Address is not
supplied, each Proprietor shall be understood to consent to the provision of notice at the business address specified in subparagraph (2) above;

4. Proof that the location for which a Tobacco Retailer's license is sought has been a valid state tobacco retailer's license by the California Board of Equalization;

5. Whether or not any Proprietor is a Person who has been determined to have violated this chapter or whose proprietorship has admitted violating, or has been found to have violated, this chapter, and, if so, the dates and locations of all such violations within the past six years; and

6. Such other information as the Department deems necessary for the administration or enforcement of this ordinance.

7. All information required to be submitted to apply for a Tobacco Retailer’s license shall be updated with the Department whenever the information changes. A Tobacco Retailer shall provide the Department with any updates within ten (10) business days of a change. (Ord. 6878 § 1, 2006)

Section 6.24.050 License Issuance; Standards.

A. No license may issue to authorize Tobacco Retailing at other than a fixed location. For example, Tobacco Retailing by Persons on foot and Tobacco Retailing from vehicles are prohibited.

B. Upon the receipt of an application for a Tobacco Retailer’s license and the license fee, required by this Chapter, the Department shall issue a license unless substantial evidence demonstrates that one of the following bases for denial exists:

1. The application is incomplete, inaccurate, or false. Intentionally supplying inaccurate or false information shall be a violation of this Chapter.

2. The application seeks authorization for Tobacco Retailing at a location for which this Chapter prohibits issuance of Tobacco Retailer’s licenses. However, this subparagraph shall not constitute a basis for denial of a license if the applicant provides the Department with documentation demonstrating by clear and convincing evidence that the applicant has acquired or is acquiring the location or business in an Arm’s Length Transaction. Clear and convincing evidence can be oral or written and must be the kind of evidence upon which a reasonable person would rely in making an important business, personal, or other decision.

3. The application seeks authorization for Tobacco Retailing for a Proprietor to whom this Chapter prohibits a license to be issued.

4. The application seeks authorization for Tobacco Retailing that is prohibited pursuant to this Chapter, that is unlawful pursuant to this Code, or that is unlawful pursuant to any other law. (Ord. 6878 § 1, 2006)

Section 6.24.060 Licenses Nontransferable.

A. A Tobacco Retailer’s license may not be transferred from one Person to another or from one location to another. Whenever a Tobacco Retailing location has a change in Proprietors, a new Tobacco Retailer’s license is required.

B. Notwithstanding any other provision of this Chapter, prior violations at a location shall continue to be counted against a location, and license ineligibility periods shall continue to apply to a location unless:

1. The location has been fully transferred to a new Proprietor or fully transferred to entirely new Proprietors; and

2. The new Proprietor(s) provide the Department with clear and convincing evidence that the new Proprietor(s) have acquired, or are acquiring, the location in an Arm’s Length Transaction. (Ord. 6878 § 1, 2006)
Section 6.24.070   Fees for License Renewal and Expiration.
   A. License Fees. The fee to issue or to renew a Tobacco Retailer’s license shall be established by resolution of the City Council. The fee shall be calculated as to recover the total cost of both license administration and license enforcement including, for example, issuing the license, administrating the license program, retailer education, retailer inspection and compliance checks, documentation of violations, and prosecution of violators, but shall not exceed the cost of the regulatory program authorized by this chapter. All fees shall be used exclusively to fund the program. Fees are nonrefundable except as may be required by law.
   B. License Renewal. A Tobacco Retailer license is invalid unless the appropriate fee has been paid in full and the term of the license has not expired. The term of a Tobacco Retailer license is one (1) year. Each Tobacco Retailer shall apply for the renewal of his or her Tobacco Retailer’s license and submit the license fee no later than thirty (30) days prior to expiration of the term.
   C. License Expiration. A Tobacco Retailer’s license that is not timely renewed shall expire at the end of its term. To reinstate a license that has expired, or to renew a license not timely renewed pursuant to subparagraph (B) above, the Proprietor must:
      1. Submit the license fee plus a reinstatement fee of ten percent (10%) of the license fee.
      2. Submit a signed affidavit affirming that the Proprietor:
         a. Has not sold and will not sell any Tobacco Product or Tobacco Paraphernalia after the license expiration date and before the license is renewed, or
         b. Has waited the appropriate ineligibility period established for Tobacco Retailing without a license, as set forth in section 6.24.110 of this Chapter, before seeking renewal of the license. (Ord. 6878 § 1, 2006)

Section 6.24.080   Other Requirements and Prohibitions.
   A. Lawful Business Operation. In the course of Tobacco Retailing or in the operation of the business or maintenance of the location for which a license is issued, it shall be a violation of this Chapter for a license, or any of the licensee’s agents or employees, to:
      Violate any local, state, or federal law applicable to Tobacco Products, Tobacco Paraphernalia, or Tobacco Retailing;
      1. Violate any local, state, or federal law regulating exterior, storefront, window, or door signage.
   B. Display of License. Each Tobacco Retailer license shall be prominently displayed in a publicly-visible location at the licensed location.
   C. Minimum Age for Person Selling Tobacco. No Person who is younger than the minimum age established by state law for the purchase or possession of Tobacco Products shall engage in Tobacco Retailing. (Ord. 6878 § 1, 2006)

Section 6.24.090   Compliance Monitoring.
   A. The City may monitor compliance with this chapter by using City staff, or the City Manager may designate the Riverside County Health and Human Services Department or another agency to perform these functions under agreement with that agency. Any peace officer may enforce the penal provisions of this Chapter.
   B. The City, or the City Manager’s designee as described in (A) above, shall endeavor to check the compliance of each Tobacco Retailer at least three (3) times per twelve (12)-month period. Nothing in this paragraph shall create a right of action in any licensee or other Person against the Department or its agents.
   C. Compliance checks shall determine, at a minimum, if the Tobacco Retailer is conducting business in a manner that complies with tobacco laws regulating youth access to
tobacco. When appropriate, the compliance checks shall determine compliance with other laws applicable to Tobacco Retailing.

D. The City, or the City Manager’s designee as described in (A) above, shall not enforce any law establishing a minimum of age for tobacco purchases or possession against a Person who otherwise might be in violation of such law because of the person’s age (hereinafter “Youth Decoy”) if the potential violation occurs when:

1. The Youth Decoy is participating in a compliance check supervised by a peace officer or a code enforcement official of the City; or

2. The youth Decoy is participating in a compliance check funded, in part, either directly or indirectly through subcontracting, by the City or the County Department of Health and Human Services, or funded in part, either directly or indirectly, through subcontracting, by the California Department of Health Services. (Ord. 6878 § 1, 2006)

Section 6.24.100 Revocation of License.

A. Revocation of License for Violation. In addition to any other penalty authorized by law, a Tobacco Retailer’s license shall be revoked if the City, using City staff, or the Riverside County Hearing Officer, is so designated by the City Manager per an agreement with the Riverside County Health and Human Services Department, finds, after the licensee is afforded notice, as described in Sections 6.24.100 (B) (1) and (2) of this Code, and an opportunity to be heard, that the licensee, or any of the licensee’s agents or employees, has violated any of the requirements, conditions of prohibitions of this Chapter or, in a different legal proceeding, has pleaded guilty, “no contest,” or its equivalent, or admitted to a violation of any law designated in Section 6.24.080 above.

B. Notice.

1. Whenever a notice is required to be given under this Code, unless different provisions are otherwise specifically made in this Code, such notice may be given either by personal delivery thereof to the person to be notified or by deposit in the United States mail, in a sealed envelope, postage prepaid, addressed to such person to be notified, at his or her last known business or residence address as the same appears in the public records of the city or other records pertaining to the matter to which the notice is directed. Service by mail shall be deemed to have been completed at the time of deposit in the post office or any United States mail box.

2. Proof of giving any notice may be made by the certificate of any officer or employee of this city or by affidavit of any person over the age of 18 years which shows service in conformity with this Code or other provisions of law applicable to the subject matter concerned.

C. New License After Revocation.

1. After revocation for a first license violation of this Chapter at a location within any sixty (60) month period, no new license may be issued for the location until ten (10) days have passed from the date of the revocation.

2. After revocation for a second violation of this Chapter at a location within any sixty (60) month period, no new license may be issued for the location until thirty (30) days have passed from the date of the last revocation.

3. After revocation for a third violation of this Chapter at a location within any sixty (60) month period, no new license may be issued for the location until ninety (90) days have passed from the date of the last revocation.

4. After revocation for a fourth or subsequent violation of this Chapter at a location within any sixty (60) month period, no new license may be issued for the location until five (5) years have passed from the date of revocation.

D. Revocation of License Issued in Error. A Tobacco Retailer’s license shall be revoked if the Department finds, after the licensee is afforded a reasonable notice and opportunity to be heard, that one or more of the bases for denial of a license under Section 6.24.050 existed at
the time application was made or at anytime before the license was issued. The revocation shall be without prejudice to the filing of a new license application. (Ord. 6878 § 1, 2006)

Section 6.24.110  Tobacco Retailing Without a License.
   A.  In addition to any other penalty authorized by law, if the Department finds or any court of competent jurisdiction determines, after notice and an opportunity to be heard, that any Person has engaged in Tobacco Retailing at a location without a valid Tobacco Retailer's license, either directly or through the Person's agents or employees, the Person shall be ineligible to apply for or be issued a Tobacco Retailing license for that location as follows:
      1. After a first violation of this Chapter at a location within a sixty (60) month period, no new license may be issued for the Person at the location until thirty (30) days have passed from the date of the violation.

      3. After a third or subsequent violation of this Chapter at a location within a sixty (60) month period, no new license may be issued for the Person at the location until five (5) years have passed from the date of the violation.  (Ord. 6878 § 1, 2006)

Section 6.24.120  Enforcement of License Violations.
   The remedies provided by this ordinance are cumulative and in addition to any other remedies available at law or equity:
   A. Whenever evidence of a violation of this ordinance is obtained, in part, through the participation of a Person under the age of eighteen (18) years old, such a Person shall not be required to appear or give testimony in any civil or administrative process brought to enforce this ordinance, and the alleged violation shall be adjudicated based upon the sufficiency and persuasiveness of the evidence presented.
   B. Notwithstanding any provision of the Riverside Municipal Code, violations of this Chapter are subject to a civil action brought by the County Counsel, punishable by:
      1. A fine not less than two hundred fifty dollars ($250) and not exceeding one thousand dollars ($1,000) for a first violation in any sixty (60) month period; or

      3. A fine not less than three thousand dollars ($3,000) and not exceeding ten thousand dollars ($10,000) for a third or subsequent violation in any sixty (60) month period; or
   C. Violations of this Chapter may be prosecuted as infractions or misdemeanors by the County Counsel or the District Attorney.
   D. Causing, permitting, aiding, abetting, or concealing a violation of any provision of this Chapter shall also constitute a violation of this Chapter.
   E. Violations of this Chapter are hereby declared to be public nuisances.
   F. In addition to other remedies provided by this Chapter or by other law, any violation of this Chapter may be remedied by a civil action brought by the City Attorney or, in the discretion of the City Manager, the County Counsel, District Attorney including, for example, administrative or judicial nuisance abatement proceedings, civil or criminal code enforcement proceedings, and suits for injunctive relief.  (Ord. 6878 § 1, 2006)

Section 6.24.130  Settlement in Lieu of Hearing.
   For a first or second alleged violation of this Chapter within any sixty (60) month period, the City Attorney or, if so designated by the City Manager, County Counsel, District Attorney may engage in settlement negotiations and may enter into a settlement agreement with a
Tobacco Retailer alleged to have violated this Chapter without approval from the City Council. Notice of any settlement shall be provided to the Department and no hearing shall be held. Settlements shall not be confidential and shall contain the following minimum terms:

"Business establishment" shall mean any entity, however organized, which furnishes goods or services to the general public. B. Bona fide occupational qualification; burden of proof. Nothing contained in this section shall be deemed to prohibit selection, rejection or dismissal based upon a bona fide occupational qualification.

In any action brought under this chapter, if a party asserts that an otherwise unlawful discriminatory practice is justified as a bona fide occupational qualification, that party shall have the burden of proving that the discrimination is in fact a necessary result of a bona fide occupational qualification and that there exists no less discriminatory means of satisfying the occupational qualification.

C. Exceptions. It shall not be an unlawful discriminatory practice for an employer to observe the conditions of a bona fide employee benefit system, provided such systems or plans are not a subterfuge to evade the purposes of this chapter; provided further that no such system shall provide an excuse for failure to hire any person. (Ord. 5599 § 1, 1987)

B. Exceptions.
   1. Owner-occupied. Nothing in this section shall be construed to apply to the rental or leasing of any housing unit in which the owner or lessor or any member of his or her family occupies the same living unit in common with the prospective tenant.

The purpose of this chapter is to provide minimum standards for construction, reconstruction, abandonment and destruction of all wells in order to (a) protect underground water resources; and (b) provide safe water to persons within the City of Riverside. Pursuant to the requirements of Section 13801 of the California Water Code, the request of the County of Riverside and the provisions of City Resolution No. 14733, the Riverside County Health Department shall enforce the provisions of this chapter within the jurisdiction of the City of Riverside. "Abandoned Well" shall mean a well whose original or functional purpose and use has been discontinued for a period of one year and which has not been declared for reuse by its legal owner with the Department, or a well in such a state of disrepair that it cannot be functional for its original purpose or any other purpose regulated under this chapter. An exploration hole shall be considered to be an abandoned well twenty-four hours after its construction and testing
work have been completed.

"Agriculture Well" shall mean any water well used to supply water for irrigation or other agricultural purposes including so-called "Stock Wells".

"Annular Seal" or "Sanitary Seal" shall mean the approved material placed in the space between the well casing and the wall of the drilled hole (the annular space).

"Community Water Supply Well" shall mean any well which provides water for public water supply systems.

"Contamination" shall mean an impairment of the quality of the waters of the State by waste substances to a degree which creates a hazard to the public health through poisoning or through the spread of disease.

"Cross-Connection" shall mean any unprotected connection between any part of a water system used or intended to supply water for domestic purposes and any source or system containing water or other substances that are not or cannot be approved as safe, pure, wholesome, and potable for human consumption.

"Department" shall mean the Riverside County Department of Health, Division of Environmental Health Services.

"Director" shall mean the Director of the Department or his duly authorized representative.

"Distribution System" shall mean and include the facilities, conduits, and all other means used for the delivery of water from the source facilities to the customer's system.

A system, regardless of type of ownership, for the provision of piped water to the public for domestic use, if such system has at least five service connections or regularly serves an average of at least twenty-five individuals daily at least sixty days of the year. A public water system includes:
   a. Any collection, treatment, storage and distribution facilities which are used primarily in connection with such system and which are under control of the water supplier.
   b. Any collection or pretreatment storage facilities which are used primarily in
connection with such system but are not under control of the water supplier.

"Reconstruction" means certain work done to an existing well in order to restore its production, replace defective casing, seal off certain strata or surface water, or similar work, not to include the cleaning out of sediments, surging, or maintenance to the pump or appurtenances where the integrity of the annular seal or water bearing strata are not violated.

The content of said Bulletins is hereby incorporated by reference with the following additions or modifications:
   Bulletin No. 74-90 Monitoring Well.
   Exploration holes for determining immediate geological or hydrological information relating to on-site sewage disposal systems, liquefaction studies, hazardous materials investigations or geotechnical investigations for construction purposes, such as foundation studies, are exempt from the monitoring well destruction standards of Part III Bulletin 74-90, provided that a zone of low permeability overlying sediments with water-bearing capabilities has not been penetrated. For the above-listed cases, the excavation or boring shall be backfilled with native soils immediately after the investigatory work has been completed. Where a zone of low permeability has been penetrated, the hole shall be abandoned as specified in Bulletin 74-90, Part III. When the excavation or boring is to be left open and unattended (such as at the end of a work shift), the person in charge of the construction shall take all necessary precautions to insure that the excavation has not created a public health or safety hazard. (Ord.
Section 6.28.110 Lateral (horizontal) well standards.

The location and design of lateral wells shall be in accordance with the standards recommended in the State of California, Department of Health Services' Publication: Requirements for Use of Lateral Wells in Domestic Water Systems as such publication may be amended by the State from time to time. The content of said publication is hereby incorporated herein by reference. (Ord. 5815 § 1, 1990)

Section 6.28.120 Required inspection of well site.

A site inspection by the Department is required prior to issuance of a permit for a well that is to be part of a public water system or other wells that possess a high potential for contamination as determined by the Director. In the event that the well is to serve a system under the direct jurisdiction of the State Department of Health Services, then that agency may perform the site inspection and notify the Director of its approval or disapproval. (Ord. 5815 § 1, 1990)

Section 6.28.130 Required inspections of wells.

A. A well inspection shall be requested of the Department at least two working days in advance of the following activities:

1. For individual domestic wells, agricultural wells, cathodic protection wells and monitoring wells:
   a. The filling of the annular space or conductor casing.
   b. Immediately after the installation of all surface equipment and (for individual domestic wells) after the well has been disinfected and purged.

2. For community water supply wells:
   a. All community water wells shall be inspected at the frequencies stated in subsection 1 of this section for individual domestic water wells. In addition, a site inspection prior to issuance of a permit is required in accordance with Section 6.28.120 of this chapter.

3. For all wells:
   a. Any other operation or condition for which a special inspection is stipulated on the well permit.

4. For well destruction (all wells):
   a. During the actual sealing of the well.
   b. Immediately after all well destruction work has been completed.

B. Upon failure to notify the Department of the filling of the annular space, approved geophysical tests including Sonic Log and Gamma Ray Log shall be conducted at the owner's expense to substantiate that an annular seal has been properly installed.

C. If the enforcement agency fails to appear at the well site at the time designated for sealing, the well may be sealed without the presence of the enforcement agency. However, the driller shall seal the well in accordance with the standards of this chapter and the permit in the absence of any inspection. (Ord. 5815 § 1, 1990)

Section 6.28.140 Discharge of drilling fluids.

Drilling fluids and other drilling materials used in connection with cathodic protection, monitoring or water well construction shall not be allowed to discharge onto streets or into waterways, and shall not be allowed to discharge to the adjacent property unless a written agreement with the owner(s) of the adjacent property is obtained. Such fluids and materials shall be cleaned up and removed within thirty days after completion of the well drilling without any violation of waste discharge regulations. This section shall not operate to prohibit the surface discharge of contaminated groundwater provided such discharge is carried out in
compliance with a lawful order of a regional water quality board. (Ord. 5815 § 1, 1990)

Section 6.28.150 General location of water wells.

It shall be unlawful for any person or entity to drill, dig, excavate or bore any water well at any location where sources of pollution or contamination are known to exist or have existed, or where substantial risk exists that water from that location may become contaminated or polluted even though the well may be properly constructed and maintained. Exceptions to the above include the following:

1. Extraction wells used for the purpose of extracting and treating water from a contaminated aquifer.
2. Wells from which water is to be treated to meet all State Department of Health standards and requirements.
3. Wells from which water will be blended with other water sources resulting in water that meets all State Department of Health standards and requirements.

Every well shall be located an adequate distance from all potential sources of contamination and pollution as follows:

- Sewer: 50-foot minimum
- Watertight septic tank: 100-foot minimum
- Subsurface sewage leach line or leach field: 100-foot minimum
- Cesspool or seepage pit: 150-foot minimum
- Animal or fowl enclosures: 100-foot minimum
- Any surface sewage disposal system discharging 2,000 gal/day or more: 200-foot minimum

Minimum distances from other sources of pollution or contamination shall be as determined by the Department upon investigation and analysis of the probable risks involved. Where particularly adverse or special hazards are involved as determined by the Health Department, the foregoing instances may be increased or specially approved means of protection, particularly in the construction of the well, may be required as determined by the Department. (Ord. 5815 § 1, 1990)

Section 6.28.160 Well logs.

Any person who has drilled, dug, excavated or bored a well subject to this chapter's regulations shall within thirty days after completion of the drilling, digging, excavating or boring of such well furnish the Department with a complete log of such well on a standard form provided by the State Department of Water Resources. This log shall include depths of formations, character, size distribution, i.e., clay, sand, gravel, rocks and boulders, and color for all lithological units penetrated, the type of casing, pump test results when applicable, and any other data required by the Department. The Department may require inspection of the well log during any phase of the well's construction and where necessary to achieve the purposes of this chapter may require modification of the work as originally planned.

Well logs furnished pursuant to this chapter shall not be made available for inspection by the public, but shall be made available to governmental agencies for use in making studies; provided, that any report may be made available to any person who obtains written authorization from the owner of the well. (Ord. 5815 § 1, 1990)

Section 6.28.170 Water well surface construction features.

A. Check Valve. A check valve shall be provided on the pump discharge line adjacent to the pump for all water wells.

B. Sample Spigot. An unthreaded sample spigot shall be provided on the pump
discharge line of any water well used as a public water supply adjacent to the pump and on the distribution side of the check valve.

C. Water Well Disinfection Pipe. All community water supply wells and individual domestic wells shall be provided with a pipe or other effective means through which chlorine or other approved disinfecting agents may be introduced directly into the well. The pipe shall be extended at least four inches above the finished grade and shall have a threaded or equivalently secured cap on it.

D. Water Well Flow Meter. A flow meter or other suitable measuring device shall be located at each source facility and shall accurately register the quantity of water delivered to the distribution system from all community water supply wells serving a public water supply system.

E. Air-Relief Vent. An air-relief vent, when required, shall terminate downward, be screened, and otherwise be protected from the entrance of contaminants.

F. Backflow Prevention Assembly. Agricultural wells equipped with chemical feeder devices for fertilizers, pesticides or other nonpotable water treatment shall be furnished with an approved backflow prevention assembly or a sufficient air gap to insure that a cross-connection with the well does not exist. (Ord. 5815 § 1, 1990)

Section 6.28.180 Disinfection of water wells.
Every new, repaired or reconstructed community water supply well or individual domestic well, after completion of construction, repair or reconstruction and before being placed in service, shall be thoroughly cleaned of all foreign substances. The well gravel used in packed wells, pipes, pump, pump column and all well water contact equipment surfaces shall be disinfected by a Department-approved method. The disinfectant shall remain in the well and upon all relevant surfaces for at least twenty-four hours. Disinfection procedures shall be repeated until microbiologically safe water is produced, as set forth in the California Code of Regulations, Title 22, Domestic Water Quality and Monitoring. (Ord. 5815 § 1, 1990)

Section 6.28.190 Water quality standards.
A. Water from all new, repaired and reconstructed community water supply wells shall be tested for and meet the standards for microbiological, general mineral, general physical, chemical, and radiological quality in accordance with the California Code of Regulations, Title 22, Domestic Water Quality and Monitoring.

B. In addition to the microbiological standards required in Section 6.28.180, all individual domestic water wells shall be tested for and meet the nitrate, fluoride and total dissolved solids (TDS) standards in accordance with the California Code of Regulations, Title 22, Domestic Water Quality and Monitoring.

C. At the discretion of the Director, for the purpose of protecting the health and safety of the public, any new, repaired or reconstructed individual domestic water well or community well shall be tested for and must meet any or all additionally specified Water Quality Standards in accordance with the California Code of Regulations, Title 22, Domestic Water Quality and Monitoring. Exceptions would be community well water to be either treated or blended with other water sources to meet State Department of Health Services standards and requirements. Said treatment or blending must be approved by the State Department of Health Services. (Ord. 5815 § 1, 1990)

Section 6.28.200 Private well evaluations.
All individual domestic water wells for which the owner requests a Department evaluation of water quality shall be tested for Water Quality Standards for individual domestic water wells as provided for in Sections 6.28.180 and 6.28.190 of this chapter. The Department shall perform a well-site inspection and conduct the microbiological sampling portion of the evaluation. Any additional testing, including any pump test to determine the yield quantity of the
Section 6.28.210    Well abandonment.
If after thirty days of abandonment, the owner has not declared to the Department a proposed reuse of the well pursuant to Section 6.28.230 of this chapter, and the well has been found by the Department to be a hazard whereby its continued existence is likely to cause damage to ground water or a threat to public health and safety, the Department shall direct the owner to destroy the well in accordance with Section 6.28.100 of this chapter. Upon removal of the pump, the casing shall be provided with a threaded or equivalently secured watertight cap. The well shall be maintained so that it will not be a hazard to public health and safety until such time as it is properly destroyed. (Ord. 5815 § 1, 1990)

Section 6.28.220    Public nuisance abatement.
Where an abandoned well has been identified and the owner fails to comply with the Department's order to destroy the well, such well may be declared a public nuisance pursuant to Government Code Section 50231, and thereafter abated pursuant to Title 5, Division 1, Part 1, Chapter 1, Article 9 of the California Government Code. Where abatement is undertaken at the expense of the County, such cost shall constitute a special assessment against the parcel and shall be added to the next regular tax bill as provided under Government Code Section 50244 et seq. (Ord. 5815 § 1, 1990)

Section 6.28.230    Declaration of proposed reuse.
Where a well is unused or its disuse is anticipated, the owner may apply to the Department, in writing, declaring an intention to use the well again for its original or other approved purpose. The Department shall review the declaration and may grant an exemption from certain of the provisions of Section 6.28.210 of this chapter, provided no undue hazard to public health or safety is created by the continued existence of the well. Thereafter, an amended declaration shall be filed annually with the Department. The original or subsequent exemption may be terminated for cause by the Department at any time. (Ord. 5815 § 1, 1990)

Section 6.28.240    Administrative variance.
Subject to approval by the State Department of Health Services, the Director may grant an administrative variance from the provisions of this chapter where documentary evidence establishes that a modification of the standards as provided herein will not endanger the general public health and safety, and strict compliance would be unreasonable in view of all the circumstances. (Ord. 5815 § 1, 1990)

Section 6.28.250    Violations and penalties.
A. The Director, or his designee, may at any and all reasonable times enter any and all places, property, enclosures and structures for the purpose of conducting examinations and investigations to determine whether all provisions of this chapter are being complied with.

B. It shall be unlawful for any person, firm, corporation or association of persons to violate any provision of this chapter or to violate the provisions of any permit granted pursuant to this chapter. Any person, firm, corporation or association of persons violating any provision of this chapter or the provisions of any permit granted pursuant to this chapter shall be deemed guilty of a separate offense for each and every day or portion thereof during which any violation of any of the provisions of this chapter or the provisions of any permit granted pursuant to this chapter is committed, continued or permitted.

Any person, firm, corporation or association of persons so convicted shall be (1) guilty of
an infraction offense and punished by a fine not exceeding one hundred dollars for a first violation; (2) guilty of an infraction offense and punished by a fine not exceeding two hundred dollars for a second violation at the same site. The third and any additional violations on the same site shall constitute a misdemeanor offense and shall be punishable by a fine not exceeding one thousand dollars or six months in jail, or both. Notwithstanding the above, a first offense may be charged and prosecuted as a misdemeanor. Payment of any penalty herein shall not relieve a person, firm, corporation or association of persons from the responsibility for correcting the violation.

C. Anything done, maintained or suffered in violation of any of the provisions of this chapter is a public nuisance dangerous to the health and safety of the public and may be enjoined or summarily abated in the manner provided by law. Every public officer or body lawfully empowered to do so shall abate the nuisance immediately. (Ord. 5815 § 1, 1990)

Section 6.28.260 Severability.

If any provision, clause, sentence or paragraph of this chapter, or the application thereof, to any person, establishment or circumstances shall be held invalid, such invalidity shall not affect the other provisions of this chapter which can be given effect without the invalid provision or application, and to this end the provisions of this chapter are hereby declared to be severable. (Ord. 5815 § 1, 1990)

Section 6.28.270 Conflict with existing laws.

The provisions of any existing ordinance or State or federal law affording greater protection to the public health or safety shall prevail within this jurisdiction over the provisions of this chapter and the standards adopted or incorporated by reference hereunder. (Ord. 5815 § 1, 1990)
