

Riverside

RECONNECTS
STREETCAR STUDY

Public Community Workshop

Find out what a streetcar system could mean for the City of Riverside.

The City of Riverside is exploring whether a streetcar system could provide an effective and efficient link within the City to the places that you live, learn, work, and play. The Riverside Reconnects Streetcar Feasibility Study will provide an analysis of system requirements, potential routes, construction and operating costs, community costs and benefits, financing options, and associated potential economic development.
