## **Riverside Restorative Growthprint Available for Review and Comment**

RIVERSIDE, Calif. – Riverside residents are invited to review and comment on the Riverside Restorative Growthprint – Economic Prosperity Action Plan and Climate Action Plan, which outlines how Riverside can tie economic development activities to a strategy for reducing the community’s greenhouse gas emissions.

The draft RRG – available for download at <http://www.riversideca.gov/planning/rrg> -- will be presented and discussed at the following public meetings at Riverside City Hall, 3900 Main Street:

- Wednesday, July 15th at 4:00 p.m. -- Green Accountability Performance Committee meeting, Mayor’s Ceremonial Room, 7th floor.
- Thursday, Aug. 6th at 3:00 p.m. -- Riverside Utility Services/Land Use/Energy Development Committee meeting, City Council Chambers.

The Riverside Restorative Growthprint (RRG) combines two plans -- the Economic Prosperity Action Plan (RRG-EPAP) and the Climate Action Plan (RRG-CAP) -- designed to spur entrepreneurship and smart growth while advancing the City of Riverside’s goals for reducing greenhouse gas emissions.

The RRG charts a course for reducing emissions that aligns with the City’s planning priorities and its vision of a future “green economy” based on sustainable businesses. The RRG-EPAP identifies the measures and strategies in the RRG-CAP with the greatest potential to drive local economic prosperity through clean-tech investment, entrepreneurship, and expansion of local green businesses.

Additional information about the plan is available from Senior Planner, Doug Darnell at (951) 826-5219 or [ddarnell@riversideca.gov](mailto:ddarnell@riversideca.gov)
