

COUNTY OF RIVERSIDE, STATE OF CALIFORNIA
RIVERSIDE COUNTY FLOOD CONTROL AND WATER CONSERVATION DISTRICT

ENCROACHMENT PERMIT

City of Riverside
3900 Main Street
Riverside, CA 92522

Riverside, California

Attention: Mr. William D. Gardner January 10, 19 85
Chief Public Works Engineer

January 7, 19 85

In compliance with your request of _____ and subject to all the terms, conditions and restrictions written below or printed as general or special provisions on any part of this form

RECEIVED
FEB 13 1985
DEPT. OF PUBLIC WORKS

PERMISSION IS HEREBY GRANTED TO

connect one 30 inch RCP storm drain to the District's Anza Channel Arlington Lateral at Station 22+04.47, on the north side. The connection shall be made using the District's standard junction Structure No. 2. All construction shall be performed using the City of Riverside Drawing No. R-2643, sheet 2 of 2.

All construction shall be performed in accordance with the appropriate provisions of the Standard Specifications for Public Works Construction, 1982 Edition, unless otherwise stated below.

Prior to beginning construction, permittee shall furnish a certificate of insurance with comprehensive liability limits of \$1,000,000.00 each claim. This insurance shall remain in effect through the duration of the work.

Permittee's attention is called to General Provision 9 and Special Provisions 1 & 2, found on the reverse side hereof, requiring 5 days notice prior to commencing work. Notice may be given by calling Howard Dickerson at 714/787-6668. In the event permittee or contractor fails to give proper notice

This permit is to be strictly construed and no work other than that specifically mentioned above is authorized hereby. Performance of the work shall be deemed to be acceptance by the Permittee of all terms and conditions of this permit.

This permit shall be voided unless work herein contemplated shall have been completed before
May 31, 19 85

By Tom W. Rodda
CHIEF OF OPERATIONS

APPROVED:

Kenneth L. Edwards
KENNETH L. EDWARDS
CHIEF ENGINEER

City of Riverside
Re: Encroachment Permit
No. 1-0-151-972

-2-

January 10, 1985

before starting work, permittee's contractor shall be required to remove the backfill for inspection and/or reconstruction of the work described in this permit, as directed by District's engineer. In addition, after any period of inactivity of 3 working days or longer, the permittee will again be required to notify this office, at least one working day in advance of the resumption of work. Failure to properly notify this office could result in the permit being revoked.

If installation is not completed within either 10 working days after commencing work, or such other time as may be specified on the encroachment permit, the permit will be suspended and no work will be allowed until a penalty payment equal to the original inspection fee is paid. This penalty will be assessed for each 10 working days, or other specified period until the installation is completed.

PLAN NO. R-2643

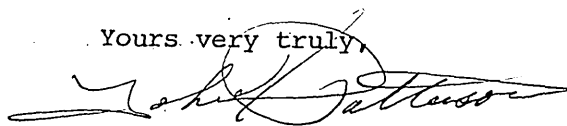

PROJECT: PRD-24-834

Dear Sir:

The enclosed plan, or plans, have been approved for construction. It is expected that the developer will let a contract for this work in the near future. If any of your existing facilities will require relocation, the necessary arrangements should be made at this time. It is the Contractor's responsibility to contact each of the utility companies regarding the clearing of the right of way as may be required by this construction.

If you are planning to construct any new facilities, please coordinate your activity with the contractor.

Yours very truly,

Enclosure
