Construct an additional 5' wide full depth paving structure as per Change Order No. 1. Excavation to be done by developer's contractor. Necessary because of water line installation.

- NOTES:**
- Construction to be in accordance with Standard Specifications for Public Works Construction, 1973 edition.
 - Trim edge of exist pavement where new pavement joins to a smooth straight line. Construct match up paving as shown and overlap paving as directed in field to produce a smooth section.
 - Construct 4" AC over 2" DG or 4" AC over compacted native soil - at contractor's option.
 - Overlay exist pavement with variable thickness AC paving per 1.0 section's plan.
