DATE	DATE	6-29-61

**GENERAL NOTES:**  
 Trim edge of existing paving where new paving joins existing pavement to clean straight line. Construct match-up paving as shown, and overlay existing paving as directed in the field to produce smooth crown section.  
 If the developer desires to reduce requirements on imported base material, additional soil tests may be taken at the developer's expense after streets are rough graded. Developer will contact the Inspection Division, City of Riverside, before making tests. The City of Riverside will make a test of the base material in place. Before paving can be installed, results of this test must indicate that the base material is satisfactory to the inspection department. Construction to be in accordance with Standards & Specifications No. 461 of the City of Riverside Department of Public Works.

**BENCH MARK:**  
 Top of I.P. capped in monument at the intersection of Adams & Arlington. Elev. 780.86. F.B. 592/12.
