FRAMING PLAN

FOUNDATION PLAN

FRONT ELEVATION

SIDE ELEVATIONS

TYPICAL 4’X8’X15/32” Plywood or OSB shear panel with 8d nails at 6” O.C. edges, ends, and field.

NOTES:

FOUNDATION REQUIREMENTS
1. Minimum compressive strength of concrete shall not be less than 3000 psi.
2. Shear plates shall be pressure treated or foundation grade redwood.
3. Anchor bolts shall be spaced not more than 72” O.C. (except at shear panels where at least 2 bolts are required) and shall be embedded at least 7” into the concrete.
4. Anchor bolts shall be a minimum of 1/2” diameter by 10” in length, with 3” x 3” x 0.229” plate washers.
5. There shall be a minimum of two anchor bolts per piece of sill plate with one bolt located not more than 12” or less than 5” from each end.
6. Concrete slab shall not be less than 3-1/2” thick. Reinforcement recommended, but not required, to be 6” x 6” x 10 gauge welded wire mesh.
7. Footings shall be on undisturbed soil.
8. Soil at footings and under slab shall be well compacted.

DOOR & WINDOW LIMITATIONS
One 36” wide door and one window (up to 48” wide) may be added to any wall as long as it is not located in a shear panel area. Stem wall to be omitted at doors and the headers for such doors and windows shall be a 4” x 6” Douglas Fir #2 or better.

ALTERNATE ROOF FRAMING
Engineered roof trusses may be substituted for the rafters and ceiling joists shown on the plans. Provide calculations from the manufacturer.

LUMBER
2” x 4” studs shall be “Stud Grade”, all other framing lumber shall be Douglas Fir #2 grade, or better. Ceiling joists are NOT designed for attic storage.

ELECTRICAL
All electrical outlets (if any) shall be GFCI protected. All electrical (if any) shall conform to the applicable codes and regulations. If electric power is provided to the garage, at least one switch controlled lighting outlet shall be provided inside the garage and one additional at the 3’ garage entry door (if one is provided). Check with your Building Inspector and the Electrical Department before proceeding with electrical installations.

DISCLAIMER
Other garage designs may be possible when provided with an engineered analysis. Use of this conventional standard design is at the user’s risk and carries no implied or inferred guarantee against failure or defects.
