DETAILS:

I am a Lieutenant for the Riverside Police Department assigned as the Area Commander for the North Neighborhood Policing Center. On Tuesday October 31, 2017, I overheard the call for this incident on the police radio. I was in my office at the Fairmount Police substation, printed out some satellite view maps of the area of the school, and responded. I arrived at Castle View Elementary School about 45 minutes after the call and went to the Command Post inside the main administration office at the school. I met with the Tactical Commander, Lt. Dinco, and gave him the maps.

By the time I arrived a majority of the students had already been evacuated from the campus, however, I was directed to manage the evacuation of a large number of children/students and staff still inside a group of portables along the southeast (Shaker) side of the campus. I met with school district officials and we decided we would centralize all evacuated children/students to Castlevue Park.

I directed officers and detectives nearby to gather a group of students somewhat near the front of the school to move further to the north to near Shaker and Tareyton where a school bus picked them up. Through Sergeant Perkins, I then had a number of officers and detectives make arrangements to evacuate the children/students and staff from the lower portables. The school district placed several buses near Shaker and Century and then a number of police personnel escorted the children and staff to the buses, which took them to Castlevue Park nearby. School district staff handled emergency notifications to parents to respond to Castlevue Park to pick up their children.

I went to Castlevue Park where I oversaw Sergeant Warren and a number of officers and detectives assisting school district personnel with centralizing the children within the park. A number of police personnel then assisted with controlled releases to parents or identified family members. This took several hours and at about 1430 hours, with nearly every child/student released, I returned to the Command Post.

I waited at the Command Post to see if I could assist in any way. During this time I directed personnel to go get snacks for our personnel and later in the evening directed personnel to order sandwiches for our personnel. I was no longer needed and left the scene at about 1900 hours.
