Narrative

On 07-25-18 I attended the autopsy of S-Russell at the Riverside County Coroner's Office in Perris CA at the request of Det. Rick Cobb with the listed assisting investigators.

Prior to any examination S-Russell was photographed as he was. S-Russell was unclothed. I noted a clear bag in the body bag with him that appeared to be full of clothing. This clothing and whatever other items with them were later inventoried by Evidence Specialist Greer and booked into evidence. I also noted various medical intervention devices attached to his body and both of his hands were covered with paper bags. The left hand bag had torn open somehow.

After photos were taken the bags were removed from S-Russell's hands and his nails were processed for DNA. I noted that his left hand was deformed and shriveled and was quite a bit smaller than the right.

Dr. Fajardo then conducted a complete and external and internal examination of S-Russell's body. Dr. Fajardo told me preliminarily that he did not note any obvious injuries to S-Russell's person. This included his head/neck and throat areas, the hyoid bone and trachea. He also noted no petechial hemorrhages of the eyes.

Cause of Death

The cause of death is Pending Coroner Review at this time. See Dr. Fajardo's report for details and his final findings.
