

**Response to Question Posed by Commissioner Slawsby regarding the Acevedo OID**

- 1. Commissioner Slawsby asked about the training that the officers involved in the Acevedo OID had prior to the event.**

This information was requested from RPD. We learned that each officer received training in dealing with people who suffer from mental illness. The training block includes a portion on "exciting delirium." One officer had the training on June 5, 2007, and the other on July 18, 2007. The Acevedo incident occurred on October 31, 2008.
