664/187 PC

File #P13-186428
Det Rick Cobb #260

On 1/9/14, I spoke with Rick Takanaga at California Department of Justice regarding DNA comparison between S-Hayes and the gun used against the officers. He informed me that his department would not be conducting a Touch DNA comparison.

Takanaga told me that there was blood on the gun and he took a sample of it. When I told him I was requesting Touch DNA from the gun, he told me it would be difficult to get, due to the blood. He then put Mark Trauber on the phone. Trauber told me that since I had other evidence placing the gun in the suspect's hands, his department would not conduct a Touch DNA comparison because it was not necessary. He said his department also would not conduct the comparison due to the backlog of cases and the shortage of personnel.

I spoke to Takanaga again a few minutes later. He then told me that blood contaminated the gun and any positive result would be attributed to the blood. He also said that the test would not be done because we had other evidence placing the gun in the suspect's hands.

Therefore, no Touch DNA test will be conducted regarding the suspect and the gun used.
