File # P12003517
Forensic Tech. S. Lane #1580 *SL*

On 01/07/12 at approximately 1720 hours, I was notified by Sergeant L. Williams to respond to 10745 Cypress Avenue for an officer involved shooting investigation. I arrived at the location and met with Detectives R. Cobb, R. Wheeler, G. Rowe and D. Smith for briefing. I began videotaping the scene at approximately 1915 hours. I labeled my videotape evidence item RL36. I then began my overall, medium and close-up photographs at approximately 1944 hours (see attached Photo Log). With the assistance of Detectives Rowe and Smith, we took measurements of all evidence items (see attached Diagram). Next, I collected evidence items RL01 through RL35 (see attached Evidence Log and/ or Property Report for full item descriptions). Senior Forensic Technician T. Ellis then arrived on scene. With the assistance of Ellis, we took measurements of the crime scene. I finished my assignment and left the location at approximately 0105 hours. I returned to the Magnolia Station and placed all evidence items (except RL25 and RL27) into the Evidence Vault at approximately 0115 hours. I then placed evidence items RL25 and RL27 into the blood drying lockers. Next, I downloaded (243) digital photographs into a secure file format.

On 01/09/12 at approximately 0900 hours, I retrieved evidence items RL20: white metal jack handle, RL22: black metal pipe piece and RL30: brown handle Panasonic folding knife from the Evidence Vault for latent print processing and possible DNA collection. I began my latent search with Cyanoacrylate fumes and Bi-Chromatic powder. No latent prints were developed on evidence items RL22 or RL30. I developed and lifted (1) latent lift from evidence item RL20. I placed that lift onto a print card and labeled it RL20B. I then collected (1) reagent swab: sterile swab with distilled water and (1) control and (2) sample swabs of possible DNA from all (3) evidence items. I labeled those swabs RL20A, RL22A and RL30A. I put the reagent swab into evidence item RL20A (see attached Evidence Log and/ or Property Report). At approximately 1200 hours, I placed all evidence items back into the Evidence Vault. I then retrieved evidence items RL25 and RL27 from the blood drying lockers for further processing. I took additional photographs of both evidence items (see attached Photo Log). I then collected evidence items RL27A: \$.79, RL27B: Taser probe and RL27C: (3) black screws from evidence item RL27 (see attached Evidence Log and/ or Property Report). I finished my assignment and placed all evidence items into the Evidence Vault at approximately 1520 hours.

On 01/10/12 at approximately 0950 hours, I retrieved evidence item RL36 from the Evidence Vault for processing. I made (1) DVD copy and labeled it RL36A. I then retrieved all evidence items from the Evidence Vault for further processing. At approximately 1532 hours, I released all (45) evidence items to Police Program Supervisor S. King.

No further action was taken.

LEGEND
