City Council Memorandum

TO: HONORABLE MAYOR AND CITY COUNCIL DATE: MAY 21, 2013
FROM: FINANCE DEPARTMENT WARDS: ALL
SUBJECT: MONTHLY FINANCIAL REPORTS - MARCH 2013

ISSUE:

The item for City Council consideration is receipt of the monthly financial and investment reports.

RECOMMENDATION:

That the City Council receive these reports.

BACKGROUND:

Each month, the Finance Department undertakes a comprehensive analysis of revenue and expenditures for the City's major funds in order to monitor budget versus actual data and identify any positive or negative trends. The Monthly Financial Report (Attachment "A") summarizes the results of that analysis, which is an essential component of the City's sound fiscal management practices. This information is presented each month from September through May, and is superseded in June by the annual audit and then suspended until the first quarter of the following fiscal year is complete in September.

The Finance Department is presenting the March 31, 2013, financial report in a workshop format so that the City Council can review the changes that have occurred between the December 31, 2012, information presented at the mid-year budget update and the end of the third quarter of the fiscal year. Finance Department staff have worked with the budget staff in each Department to update the revenue projections for the current fiscal year to reflect nine months of operating results and a solid projection of the remaining three months of the fiscal year. As a result of this analysis, a \$1.6 million reduction in the forecast for Fiscal Year 2012/13 revenues has occurred. Fortunately, departments have continued to save additional funds, and the projected expenditure budget deficit has been reduced by approximately \$100,000 to \$856,000. However, as a result of the weakened revenue projections and various supplemental appropriations from the General Fund reserve throughout the year that now total \$1.3 million; the current projection reflects a reduction in the General Fund reserve balance as of June 30, 2013, of approximately \$3.6 million.

The Fiscal Year 2012/13 budget was adopted with an anticipated use of reserves of approximately \$1 million. Without taking into account \$1.3 million of mid-year appropriations from the General Fund reserve, actual General Fund performance is only \$1.3 million lower than anticipated in the adopted budget, which is a variance of 0.6%. However, absent additional revenues or expenditure reductions this will result in a projected year-end reserve balance of \$36.5 million, down from \$40.0 million at the start of the fiscal year. This number does not take into account the impact of Measure A, should it fail, or of the settlement agreement related to the Water General Fund Transfer. Staff will return to the City Council in mid-June following the Measure A election to present a recommended Fiscal Year 2013/14 budget. At that time, updated information will be shared regarding the anticipated June 30, 2013, reserve balance and the impact of the 2013/14 budget, Measure A, and the Water GFT settlement on the projected June 30, 2014, reserve balance.

Sound investment practices are also essential to the City's fiscal management. The Finance Department is responsible for managing the City's investment portfolio, focusing first on the safety of investments and then on liquidity and an appropriate rate of return. The investment results and portfolio composition are summarized and reported to the City Council each month (Attachment "B").

The Finance Department is also charged with managing the City's debt portfolio, issuing new debt, and monitoring opportunities to refinance existing debt to minimize the City's cost of borrowing. The attached Monthly Debt Report (Attachment "C") summarizes the composition of the City's debt portfolio, details the revenue sources utilized to pay the debt service associated with each outstanding debt, and provides detailed information regarding the total principal and interest payments due in the current fiscal year by Fund.

FISCAL IMPACT:

There is no fiscal impact associated with this report.

¹ Includes mid-year budget adjustments and carryovers.

² Increase is primarily related to rate increases and growing consumption.

³ Decrease is primarily related to a reduction in bond interest revenue due to declining bond cash balances.

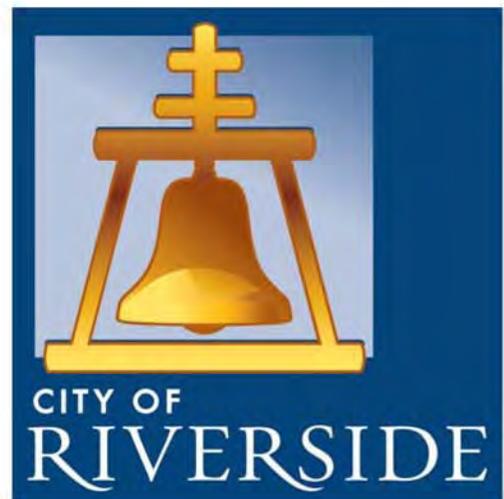

⁴ Increase is primarily related to an increase in power supply purchases due to higher than expected electricity sales.

⁵ Year to date amounts are significantly lower than budget because several large projects are in progress.

¹ Excludes water stock acquisition rights, copies leases, development agreements, and amortization of premiums and discounts on outstanding debt, none of which are material.

² 48.3% of the debt service for these bonds is allocated to other Funds based on the percentage of miscellaneous CalPERS plan employees budgeted in those Funds.

³ 25.4% of the debt service for these bonds is allocated to the Parking Fund for the construction of Garage 6 and to the Successor Agency for the construction of the University Village garage.

⁴ Debt service for this loan is primarily funded from a voter-approved increase in the transient occupancy tax rate from 11% to 13%. No payments are due until 2014.

⁵ A portion of the debt service for this loan related to non-parking facilities is funded by the General Fund.

⁶ Under the terms of an existing development agreement, increased incremental sales tax resulting from the expansion of the Auto Center funds the debt service on these bonds.
