PREVENT THE

**SUM
MER**

SLIDE

FACTS ABOUT SUMMER SLIDE:

The benefits of summer reading are clear. National research from Dominican University finds that **students who participate in public library summer reading programs scored higher on reading achievement tests** at the beginning of the next school year than those who did not participate.

Parents of children enrolled in the public library summer reading program reported that their **children spent more time reading over the summer, read more books, were well prepared for school in the fall**, and read more confidently.

To succeed in school and life, **children and young adults need ongoing opportunities to learn and practice essential skills**. Summer Reading Club reminds kids that reading is for fun—as well as for learning.

Studies show that **children who are read to in the home and who use the library perform better in school** and are more likely to continue to use the library as a source of lifetime learning.
