Each submittal should include two 8 1/2 x 11" sheets:
- one containing the Parking Analysis
- one containing a Scale Plot Plan

The Parking Analysis must prove that ample parking is available for the use(s).

The Scale Plot Plan must show the parking design with handicapped parking noted with an ‘H’ or handicapped symbol.

Show the building/suite numbers and/or addresses proposed for each tenant use of your project on both the Parking Analysis and the Scale Plot Plan.

Any change of occupancy requires approval of a revised Parking Analysis and a tenant improvement.
