

GENERAL NOTES

1. Construction shall be in accordance with the City of Riverside, Dept of Public Works, Standard Specifications No. 48 and Standard Drawings.
2. It shall be the responsibility of the contractor to clear the right of way in accordance with the provisions of the law as it affects each utility including irrigation ditches and easements and set its cost to the City.
3. Joints shall be in conformance to A.S.T.M. specification C-425-64 Type 1 or 3 or to A.S.T.M. specification C-534-67 (band 500) with certain exceptions or modifications on file with the City engineer.
4. Pipe shall be bedded per 'Case 1' Standard Drawing No. 452 unless otherwise specified on plan.
5. All manholes to be constructed per std. Dwg. No. 500 unless otherwise shown.
6. Location of 'tees' and 'laterals' will be determined in the field by the owner or his representative.
7. Prior to trenching, contractor is to uncover existing sewer pipe and contact the Engineer to verify the existing alignment.
8. It shall be the contractor's responsibility to familiarize himself with the jobsite and any underground facilities shown or not shown on these plans. The Engineer will not be responsible for any damage to underground facilities.
