 Director of Public Works

**PLAN**  
 Scale: 1"=50'

- GENERAL NOTES**
- It shall be the responsibility of the contractor to clear the right of way in accordance with the provisions of law as it affects each utility including irrigation lines and appurtenance and no cost to the City.
  - Construction shall be in accordance with the City of Riverside, Department of Public Works, specifications No. 361, and standard Drawings.
  - Prime Coat, Seal Coat, & Patch Binder are required.
  - Grading will require a permit under Ordinance 3033 for a cut or fill exceeding 100 cu. yds. or a fill over one foot in depth.
  - The Developer shall arrange for a test of the soil at the sub-grade level by a soil engineer. Thickness of pavement and thickness and type of aggregate base shall be determined by the soil engineer, and submitted to the City of Riverside for approval.
  - Developer shall furnish and install street name signs and post as per Std. Div. #62, contact Traffic Division for Block Numbers before ordering signs.
  - The finished sub-grade shall have a composition of not less than 90% for a depth of 2.5 feet as determined by test method No. 2017, 216 F immediately prior to placement of the cover.
