- GENERAL NOTES
- All work shall conform to the requirements of the Riverside County Road Department Specifications for the improvement of subdivision streets, dated 1957, and 441.
 - Subdivider will install street signs conforming to County Standard No. 28, as directed.
 - Any relocation of existing utilities to clear the proposed work shall be the responsibility of the subdivider.
 - It shall be the responsibility of the contractor to notify the Engineer after the base course for the street has been constructed and before the paving has been installed so that the Engineer may install the street center-line measurements required by the Riverside County Ordinance No. 42, Standard No. 42.
 - It shall be the responsibility of the subdivider or contractor to apply to the Riverside County Road Department, Permit Section, for an encroachment permit for all work adjoining existing County maintained roads.
