CURRENT SITUATION

(Recent updates are posted at the top of Current Situation)

On June 19, 2018 at 9:59 p.m., The City of Riverside Fire Department responded a first alarm structure fire response to the 3800 block of Jackson to the Park Village Apartment Complex for reports of a motorcycle on fire in a storage unit attached to the structure. Firefighters arrived to discover a storage unit on fire attached to a single story multi-family dwelling apartment with fire extending into the attic space. Firefighters were hampered with electrical, cable and telephone lines compromised by the fire to the building. Firefighters encountered a working attic fire. A second alarm was immediately requested. Firefighters cordoned off the area of electrical hazard keeping civilians and firefighters out of the danger area. Riverside Public Utilities were requested to respond to the incident. Jackson Street southbound was closed for apparatus placement. Firefighters extinguished the fire within 22 minutes of arrival. There were no civilian or firefighter injuries. Riverside Public Utilities responded and mitigated the utilities. Two apartment units were affected by the fire. There were two displaced adults and two displaced teenagers. The displaced residents were assisted by the apartment complex manager with a hotel room and friends. There was no need for Red Cross to respond to the incident. Firefighters remained on the incident for three hours performing overhaul and salvage mitigating the blown-in insulation in the attic space. The save was estimated at \$150,000 with an exposure save of \$600,000. The loss to the structure was estimated at \$50,000 with a content loss of \$15,000. Fire cause was undetermined after investigation by investigators, however, probable cause was mechanical from motorcycle.
