In addition to the other terms of this Schedule, the Economic Development Rate Agreement shall require the customer to reimburse Riverside for all rate reductions received under this Schedule, if the customer fails to maintain the required minimum load during the four-year term of the Agreement.

**5. Minimum Load:**

Customers qualifying under this Schedule as a New Customer with a projected minimum monthly electric demand of at least 500 kW or as an Expanded Load Customer under Sections C.1.b and C.2 above, respectively, must agree to maintain a minimum level of load for four years from the date service is first rendered under this Schedule as set forth in the Economic Development Rate Agreement.

The rates in Customer’s Otherwise Applicable Tariff and under this Schedule are subject to a surcharge as adopted via City Council Resolution No. 19203, and such surcharge as is in effect from time to time. A complete list of current NAICS codes are on file with Riverside Public Utilities and available on request.

The table on the following page identifies relevant 2017 NAICS codes and titles for qualified research, development or technology business under Section C.1.a.:

**15. Applicable Rate Schedule:**

**a. Applicable Rate Schedule**

For Customers applying for service at an existing service address, the Utility will assign the electric rate schedule based on the characteristics of the service address. The Utility will presume that any electric rate previously assigned to that service address is the appropriate schedule, unless Customer requests a review for another applicable rate schedule, rate, or optional provision. In certain situations when a Customer does not qualify for an electric rate previously assigned to that service address, the Utility will assign the applicable rate to the Customer. The Utility assumes no responsibility for advising the Customer of lower optional rates under existing schedules available as a result of the Customer’s changes to the characteristics of the service address.

**b. Change of Rate Schedule**

A change to the applicable rate schedule may be made if the Utility determines that the Customer no longer qualifies for the assigned rate schedule. Subject to meter availability, the change will become effective for service rendered after the next regular meter reading following verification and approval by the Utility of such eligibility. Any change in rate schedules pursuant to this section shall be made prospectively.
